About IndSearch:

Pioneering Management Education in Pune, IndSearch, established in 1973 has completed an eventful 50 years of contribution to value-based Management Education and research. IndSearch alumni are working in well-known Indian Companies and reputed MNC's. IndSearch is the oldest management institute under Savitribai Phule Pune University.

In recognition of high standards in providing quality education, IndSearch has been conferred "Autonomous status" in July 2007 by UGC and Savitribai Phule Pune University in concurrence with Government of Maharashtra and has also earned permanent recognition from Savitribai Phule Pune University as an Institute for Management and doctoral studies.

IndSearch conducts two-year full time Post Graduate M.B.A. Course Recognized by AICTE, New Delhi and the Government of Maharashtra having specialization in Finance, Marketing, Human Resource Management, Information Technology, Business Analytics and Operations & Supply Chain Management.

IndSearch offers BACHELOR OF MANAGEMENT STUDIES (BMS) courses: BMS in E-Commerce and Supply Chain Management, BMS in Computer Applications and Business Analytics and BMS in Dual Specialisation and also offers BACHELOR OF BUSINESS ADMINISTRATION (International Business) – BBA (IB) at its Law College Road Campus, Pune. After successful completion of the courses, degree will be awarded by Savitribai Phule Pune University.

IndSearch also conducts Post Graduate Diploma Courses: PGDBM, PGDEM, PGDFS, PGDHRM, PGDIEM, PGDMM, PGDCM in Digital Business.

IndSearch offers Ph.D. programme in various functional areas of management including Financial Management, Marketing Management, Information Technology Management, Human Resources Management and Operations Management which is permanently recognized by Savitribai Phule Pune University.

About the Competition:

The world is headed towards reorganization of technology with robotics, artificial intelligence and automation in every field including Finance. The financial landscape holds the key for Finance and Technology – Fintech which has become inevitable force and thus, we have to be ready with the right people and technology to take advantage of this disruption today and in the future times ahead.

Future of Finance is envisioned and reshaped as one which creates opportunities to craft a more inclusive economy with immense potential for growth and competition. The rapid advancements in algorithms, data analytics, cloud based ERP, transition, insurtech, financial services, risk management, investments, regulatory frameworks has led to unprecedented growth with risk mitigation and has transformed the scope of Finance like never before.

Futuristic Finance brings with it the hopes of developing financial markets, promoting financial inclusion and maintaining stability of systems in the economy. But can these exist without human intervention? Human interactions may be required at various levels where automation raises concerns about transparency, accountability, bias in decision-making, security and threats. Human interaction can be valuable in scenarios requiring personalized advice, emotional support, and relationship building technology. Fintech has incredibly improved the quality and speed of work but there are also concerns and fears about it either overtaking or undermining the human role in the same. The reliance on technology in Finance has raised several questions about the place of human intervention in the future of fintech.

To create a financial ecosystem, what needs to be harnessed more- Technology, People or Both? What will help create a balance in the economy and pave way for predictions and vision in Futuristic World of Financial Sector?

This leaves us with several questions, leading to the themes and subthemes of the topic:

- Fintech & Financial Inclusion
- Emerging trends in Fintech
- Sustainable fintech
- Human Resource in Fintech
- Fintech and cyber security
- SupTech/ RegTech/ InsurTech

Objective:

To create a platform for undergraduate and post graduate students below the age of 25 years (faculty guide permitted) to share and exchange their views on futuristic finance.

Publication Opportunity:

All submissions are subject to double blind review process. All the selected papers may be considered for publication in UGC approved journal or peer reviewed journal of Indsearch with ISSN No. The papers will be considered for publication provided they meet the standards of publication (charges applicable).
